

**ECHLIN®**

**HEAVIER-DUTY COILS FOR IMPORT VEHICLES**

# WHAT'S IN YOUR BOX?

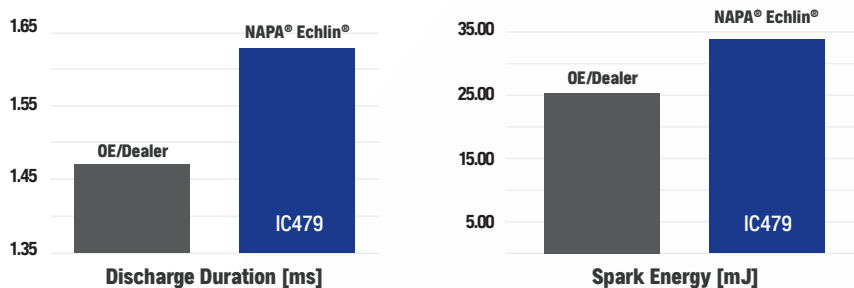

## Product of Superior Design

Designed and manufactured at our IATF 16949-certified facility in Bialystok, Poland, NAPA® Echlin® Heavier-Duty Ignition Coils are a product of superior design, engineering and testing. NAPA® Echlin® premium Import Coils feature numerous upgrades and competitive benefits to deliver a more reliable, better-performing, and longer-lasting Ignition Coil. That's the NAPA® Echlin® legacy.

**What's inside the NAPA® Echlin® box...  
superior design, advanced engineering and  
Heavier-Duty Ignition Coils. What's in your box?**

### The Test Results Are In

NAPA® Echlin® Coils outperform the OE coil with more spark energy and longer-lasting discharge to deliver improved performance and fuel economy.

## ENGINEERING IMPROVEMENTS

Engineering improvements to deliver a better-performing and longer-lasting Coil

Popular NAPA® Echlin® Heavier-Duty Coils are available in multi-packs for a complete coil service

## NAPA® ECHLIN® RELIABILITY

A more reliable, better performing ignition coil

# NAPA® Echlin® Import Ignition Coils feature more sections. That means less heat and a longer coil life.

## Problem:

Ignition coils on 2020-01 Nissan & Infiniti 3.5L V6s have a high failure rate

OE coil has 8 bobbin sections

This causes more heat and leads to premature coil failure

## Solution:

NAPA® Echlin® designed an all-new Coil with an additional section

NAPA® Echlin® IC479 has 9 bobbin sections

The additional section means less energy passes through each section, allowing for lower temperatures and longer Coil life

## Superior Design and Engineering

ECHLIN®

LOOKS RIGHT. FITS RIGHT. PERFORMS RIGHT.
