Echlin® Expands Gas Fuel Injection Program Offering

Key Takeaways

- Echlin's Gasoline Fuel Injection program features more than 2,100 parts, including GDI, MFI and TBI Injectors and related parts for the most complete program in the industry
- New award-winning Echlin® High-Pressure Fuel Pump Kits for direct injection engines include everything needed for a complete repair
- Echlin®-manufactured all-new Injectors are built in Echlin's IATF 16949-certified Greenville, South Carolina facility

NEW YORK, N.Y., January 4, 2024 – Echlin® continues to expand its aftermarket-leading Gasoline Fuel Injection program. With more than 2,100 part numbers, NAPA® Echlin® offers the most complete program in the industry, including everything needed for a complete repair.

NAPA® Echlin's complete Fuel Injection program features over 1,100 all-new, not remanufactured, Gasoline Direct Injection (GDI), Multi-Port Fuel Injection (MFI) and Throttle Body Injection (TBI) Injectors, as well as Fuel Injector Multi-Packs for a complete repair solution. New Fuel Injectors manufactured by Echlin® are built in Echlin's IATF 16949-certified Greenville, South Carolina facility. Echlin® New Fuel Injectors are also extensively tested at this facility for flow and spray pattern and durability to ensure that they match OE-designed performance in all conditions.

In addition to Injectors, the Echlin® program also includes High-Pressure Fuel Pumps and Kits, Fuel Injector Rail Kits, Fuel Pressure Sensors, Fuel Feed Lines, Fuel Pressure Regulators, GDI Service Kits, Fuel Pressure Sensor Connectors, Camshaft Followers and more for a complete line of GDI components, with coverage for import and domestic vehicles through the 2023 model year.

NAPA® Echlin® Direct Injection High-Pressure Fuel Pump Kits

NAPA® Echlin® recently launched its line of Direct Injection High-Pressure Fuel Pump Kits for popular import and domestic applications. These award-winning Kits simplify high-pressure fuel pump replacements by including everything needed for a complete repair: a high-pressure fuel pump, camshaft follower, and any additional components needed based on the manufacturers' repair procedures. These complete kits are designed to save technicians' time and ensure that the job is done correctly the first time with all-new components.

New Coverage

Multiple new GDI and MFI Injectors have been released recently, offering coverage for millions of Ford, Hyundai, Audi, Honda, Infiniti, and Volvo vehicles. Popular applications include the 2022-21 Ford F-150,

2023-21 Hyundai Elantra, 2021-19 Honda Insight and 2019-17 Infiniti Q60. Several Fuel Pressure Sensors have been introduced, adding new coverage for popular vehicles like the 2023-22 Jeep Grand Cherokee and 2013-06 Honda Civic. Fuel Feed Lines are new for nearly 1 million Audi and Volkswagen vehicles, as well as the 2018-13 Nissan Altima, 2020-19 Toyota RAV4 and more. Fuel Pressure Sensor Connectors have been released for Ford vehicles through 2021 and Jeep vehicles through 2023.

All new applications are listed in the catalogs found at [NAPAEchlin.com](https://www.NAPAEchlin.com) and [NAPATemp.com](https://www.NAPATemp.com), and in electronic catalog providers.

About Echlin®

Echlin® engineers and manufactures top-quality ignition & electrical, emissions, fuel, wire, power management, sensors, safety-related systems components and more for import and domestic vehicles. This full line of premium automotive products includes diesel components, turbochargers, TPMS, VVT, ADAS and thousands of sensors and switches. NAPA® Echlin's line of high-quality parts are unrivaled for their superior quality, original match and comprehensive coverage.
