Diesel Fuel Injectors (HEUI) - Remanufactured

The Product of a Superior Remanufacturing Process

The Hydraulic Electronic Unit Injector (HEUI) system uses high-pressure engine oil instead of a camshaft to control the injection of fuel. Unlike a conventional fuel system, where fuel injection pressures increase proportionally with engine speed, the HEUI system works with the ECM to electronically control injection independent of engine speed.

To ensure continued performance and reliability, all NAPA® Echlin® Diesel Fuel Injectors are the product of an exhaustive remanufacturing process at a TS16949, ISO9001, and ISO14001-certified facility. For an example of what goes into our remanufactured injectors, take a look at our INJ225R:

Diesel Fuel Injectors (HEUI) - Top Sellers

Here are some of our top selling Remanufactured Diesel Fuel Injectors for Hydraulic Electronic Unit Injector (HEUI) systems:

INJ209R

Ford F Pickup, E-Vans (1998-94)

INJ212R

Ford F Pickup, E-Vans (1999-95)

INJ217R

Ford F Pickup, E-Vans (2003-99)
International Trucks (2002-99)

INJ218R

Ford F Pickup, E-Vans (2003-99)
International Trucks (2002-99)

INJ220R

Ford F Pickup (2004-03)
International Trucks (2003-02)

INJ421R

International Trucks (2005-04)
