

ECHLIN

EV / HYBRID PROGRAM

WHAT'S IN YOUR BOX?

Hybrid and Electric, NAPA® Echlin® has you covered

NAPA® Echlin® and NAPA® Temp currently offer over 4,000 SKUs for 150 hybrid models and 1,900 SKUs for more than 40 electric vehicles.

Hybrids and EVs are still cars. They use the very same switches, sensors and actuators as gas vehicles, but they also present new opportunities. Batteries need to be heated and cooled, wires carrying high voltage fail and battery contacts corrode. NAPA® Echlin® and NAPA® Temp are committed to providing you with the parts you will need to service the next generation of vehicles.

What's inside the NAPA® Echlin® and NAPA® Temp box... superior design, advanced engineering and EV/Hybrid coverage. What's in your box?

NAPA® Echlin® and NAPA® Temp have over 50,000 parts that are powertrain neutral. That means the parts are the same whether the powertrain is gas, diesel, hybrid or electric.

50,000
POWERTRAIN
NEUTRAL PARTS

NAPA® Echlin® and NAPA® Temp powertrain neutral coverage features over 50,000 parts

4,000
HYBRID PARTS

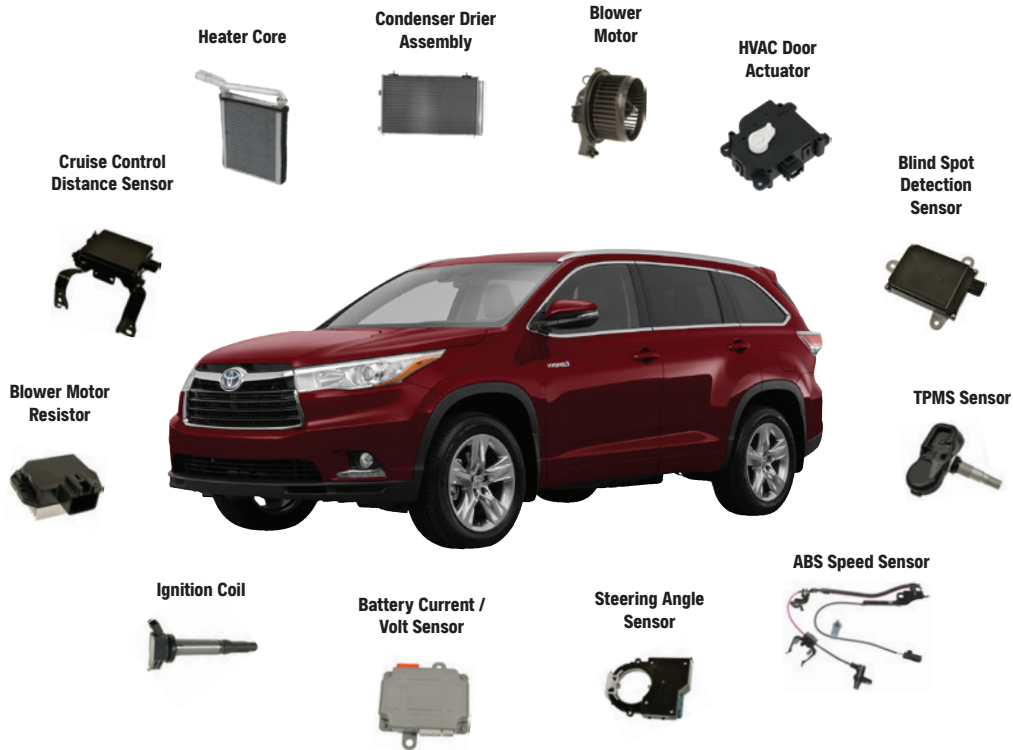

NAPA® Echlin® and NAPA® Temp offer more than 4,000 parts for hybrid vehicles

1,900
EV PARTS

NAPA® Echlin® and NAPA® Temp offer more than 1,900 parts for electric vehicles

We have over 140 parts for the 2014 Toyota Highlander Hybrid

There are 5 million hybrid vehicles on the road, and many of them are more than 10 years old. With two different systems powering the vehicle, hybrids have more components compared to gas vehicles. More hybrids, aging hybrids, and more parts mean that hybrid repair opportunities are growing. NAPA® Echlin® and NAPA® Temp already have the parts you're looking for.

NAPA® Echlin® and NAPA® Temp Components for Hybrids and EVs include

NAPA® Echlin® EBC300
Charging Cable Adapter
Tesla 3, S, X, Y, & Roadster
(2023-08)
