Echlin® Emission Control Program Expands

Key Takeaways

- NAPA® Echlin's Emission Control program features more than 3,500 parts, including EVAP, EGR, and positive crankcase ventilation products
- Echlin® manufactures emission control components in its own North American facilities located in South Carolina, Kansas, and Mexico
- Echlin® is committed to expanding its comprehensive emission control program, with new products continually released

NEW YORK, N.Y., February 7, 2024 – Echlin® is dedicated to expanding its comprehensive Emission Control program. NAPA® Echlin's Emission Control program includes evaporative emission control (EVAP), exhaust gas recirculation (EGR), and positive crankcase ventilation emission control systems. With more than 3,500 part numbers, NAPA® Echlin® offers the most complete program in the industry, with everything needed for a complete repair.

Echlin® emission components are manufactured in three of Echlin's North American facilities in Greenville, South Carolina, Independence, Kansas, and Reynosa, Mexico. Each component is precision-engineered and tested for durability and OE-matching performance. To ensure trouble-free operation, components must pass comprehensive quality testing, including computer-controlled bench testing for resistance, leakage, and response and flow rates, and undergo on-vehicle validation at Echlin's Vehicle Testing Center in Irving, Texas.

NAPA® Echlin's EVAP program features over 1,300 part numbers and includes Vapor Canister Purge Pumps, Vapor Canister Vent Hoses, Vapor Canister Purge Valve Hoses, Canister Vent Solenoids, Fuel Vapor Canisters, Canister Vent Valves, Canister Purge Valves, Fuel Vapor Leak Detection Pumps, Canister Purge Solenoids and more. Recently released NAPA® Echlin® EVAP components include Vapor Canister Purge Pumps for more than 2 million General Motors SUVs like the 2023-21 Chevrolet Trailblazer. Fuel Vapor Canisters have been added recently for the 2022-20 Ford Transit, 2023-19 Nissan Altima and more. Canister Purge Solenoids are new for Dodge and Jeep vehicles through 2024.

NAPA® Echlin's extensive EGR program includes EGR Valves, EGR Control Solenoids, EGR Valve Vacuum Modulators, EGR Tubes, EGR Coolers and more. EGR Tubes are released consistently, with new coverage available for nearly 4 million Subaru vehicles through 2023, as well as Ford vehicles like the 2023-18 F-150. EGR Valves have been released for import and domestic vehicles like the 2023-20 Jeep Wrangler, 2022-18 Honda Accord, and 2024-20 Subaru Outback. Additionally, EGR Control Solenoids have been released for the 2020-16 Kia Optima, 2023-20 Ford Escape and more.

The NAPA® Echlin® positive crankcase ventilation category features Crankcase Ventilation Filters, PCV Valves, Engine Oil Separators, Crankcase Breather Hoses and more. PCV Valves are new for the 2023-18 Jeep Cherokee and Compass. Crankcase Breather Hoses have been added for 1.6 million late-model Ford vehicles, such as the 2023-21 F-150 and 2023-20 Explorer, as well as Mazda vehicles through 2023.

All new applications are listed in the catalog found at [NAPAEchlin.com](https://www.NAPAEchlin.com) and in electronic catalog providers.

About Echlin®

Echlin® engineers and manufactures top-quality ignition & electrical, emissions, fuel, wire, power management, sensors, safety-related systems components and more for import and domestic vehicles. This full line of premium automotive products includes diesel components, turbochargers, TPMS, VVT, ADAS and thousands of sensors and switches. NAPA® Echlin's line of high-quality parts are unrivaled for their superior quality, original match and comprehensive coverage. For more information, visit [NAPAEchlin.com](https://www.NAPAEchlin.com). **NAPA® Echlin® Looks Right. Fits Right. Performs Right.**
