

GET WITH THE PLAN. GET MORE REVENUE. YES, IT'S THAT SIMPLE.

- 1 More products
- 2 Updated packaging
- 3 Enhanced Ultra and Pro kits

Get ready to partner with motorists

Most motorists know to have their filters checked regularly and have their motor oil changed every 3,000 miles, but many don't know they need to maintain their fuel injectors too. That's where the **CLEEN Plan** can help. The **CLEEN Plan** is a comprehensive fuel injection cleaning program that combines motorist preventative maintenance with a regular professional cleaning.

Get ready for incremental revenue growth

Here's an example: Say your business services 250 vehicles a month. If only 20% come in experiencing some type of drivability problems, that could be an opportunity for 50 fuel injection cleanings a month. At an average price of \$109 multiplied by 50 vehicles per month, **you could potentially produce additional revenue totaling \$65,400!**

Discover the reenergized
CLEEN Plan from your
partner in profit – NAPA®.

The highlights:

The CLEEN fuel injection cleaning program combines motorist preventative maintenance with a regular professional cleaning. By offering the CLEEN Plan, you have another great opportunity to build ongoing relationships with customers.

It's easy for both parties. Motorists should use Super CLEEN or EZ-Pour CLEEN every 5,000 miles. Then they come to see you once a year for the full professional cleaning.

Your customers see an immediate benefit. With the CLEEN Plan, your customers will notice smoother idling, improved engine performance and big savings at the pump.

This is a relatively untapped market with high income potential and opportunity for return business, especially when linked to other services like engine tune-ups and oil changes.

ULTRA CLEEN KIT – Enhancements, features and benefits

The new standard in fuel system cleaning. Re-engineered, the new Ultra Clean kit meets the needs of today's technician with a redesigned canister and gauge for the most accurate readings, plus an advanced quick-disconnect system for easy adapter hook-up and maximum efficiency. The Ultra Clean system uses your shop air to clean fuel injectors even faster and more efficiently eliminating the need for aerosol disposal.

- **NEW** Quick-Disconnect System for easy adapter hook-up to shop air
- Reducer Adapter included to ensure accurate fit to your shop air system
- Redesigned heavy-duty Ultra Kit canister and gauge with protective gauge covers
- Larger gauge for a more accurate pressure reading

- Kit is updated for current model year vehicles
- Adapters have I.D. rings and are well organized with identification charts for each compartment
- Throttle body "S" tool is included for cleaning intake runners
- Tests fuel pumps, pressure regulators, and diagnoses leaking fuel injectors (T-Style Adapter)
- Printable CD manual included with each kit

PRO CLEEN KIT – Enhancements, features and benefits

Our new Pro Clean cleaning system. Completely redesigned with a new gauge and advanced quick-disconnect system, the new Pro Clean kit is the perfect solution for those technicians who require an aerosol based cleaning system.

- **NEW** Quick-Disconnect System for easy adapter hook-up
- Adapters come with required hardware and cover many different fuel systems
- Kit is updated for current model year vehicles
- Longer main feed line hose and fuel pump loop hoses for pumps that cannot be disabled

- Larger gauge for a more accurate pressure reading
- Hose adapters come complete with identification rings
- Includes longer fuel rail mounting bolts for applications where the OE bolts may be too short
- Printable CD manual included with each kit

The new family of CLEEN chemicals features:

High-impact graphics and color-coded labels

Fuel Injector Cleaner with Intake Valve Cleaner Additive

2-18489 An Aerosol cleaner for use with PRO CLEEN KIT, it's CFC free, Oxygen Sensor & Catalytic Converter Safe.

Super CLEEN Advanced Fuel Injection Cleaner

2-99104 Advanced Pour-in-the-Tank formula removes harmful deposits, improves fuel economy and restores vehicle power and performance.

EZ-Pour CLEEN Fuel Injection Cleaner

2-99115 Pour-in-the-Tank pro-grade formula saves money at the pump and improves vehicle performance.

Ultra Clean Professional Fuel System Cleaner

2-18469 – Use with ULTRA CLEEN KIT.

Ultra CLEEN Professional Air Intake System Cleaner

2-99102 – Removes deposits, restores engine performance. For use with ULTRA CLEEN KIT & "S" tool adapter.

Throttle Plate Cleaner

2-99106 – Easily dissolves deposits that cause drivability problems, restoring power and fuel economy.

Other new chemicals include 2-99105 Fuel Tank Flush and 2-99107 Mass Air Flow Sensor Cleaner.
