

THREE GOOD REASONS TO GET WITH THE PLAN

Motorist Guide

- 1 Spend less at the pump
- 2 Enjoy better performance.
- 3 Cut your emissions

Do it all with **NAPA® CLEEN Plan.**

The NAPA CLEEN Plan is a partnership between you and your trusted professional technician.

Most motorists know to have their filters checked regularly and have their motor oil changed every 3,000 miles, but many don't know they need to maintain their fuel injectors too. That's where the **CLEEN Plan** can help.

The **CLEEN Plan** is a comprehensive fuel injection cleaning program that combines motorist preventative maintenance with a regular professional cleaning.

Using the CLEEN Plan helps remove deposits and dirt from your fuel system. And when you do that, you'll:

- Get better gas mileage.
- Reduce your emissions.
- Enjoy better engine performance.
- Help eliminate issues like hesitation and rough idling.

Why, because fuel injectors get dirty!

Over time, deposits build up on injector nozzles altering the spray volume and pattern. These deposits come from additives used in gasoline. As injectors get clogged, a vehicle may hesitate, stumble, suddenly lose power, idle rough or be difficult to start. By removing the deposits, the injectors work efficiently, the engine receives proper fuel delivery resulting in maximum vehicle efficiency, power and performance.

DIRTY Fuel Injector

CLEAN Fuel Injector

The **CLEEN Plan** was developed by **NAPA® Echlin®** – a major manufacturer of fuel injectors. The experts at NAPA Echlin know what it takes to keep fuel injectors clean. And now you can tap into that knowledge by using the **CLEEN Plan**.

Using the CLEEN Plan is a breeze.

1. Just pour Advanced Super CLEEN or EZ-Pour CLEEN into your gas tank every 5,000 miles.
2. Then, once a year, ask the professionals at your NAPA AutoCare Center to use the full line on your car.

Advanced pour-in-the-tank formula. 2-99104

Super CLEEN Advanced formula is a **complete** combustion chamber cleaner that restores the **entire** fuel system. Used **every 5,000 miles**, in between professional cleanings, Super CLEEN Advanced keeps the entire system clean, rapidly and safely removes harmful engine deposits in injectors, valves, combustion chambers, ports and intake manifolds to restore vehicle power, performance, and improve gas mileage.

EZ-pour-in-the-tank formula. 2-99115

EZ-Pour Pro-Grade formula cleans up to the intake valves, removing deposits in gasoline injectors that can cause sluggishness, surging, stalling, hesitation and starting difficulties. When used **every 5,000 miles**, in between professional cleanings, EZ-Pour will help prevent deposit formation in the fuel system restoring vehicle power.

You'll notice a difference in your car – and your wallet.

In addition to a smoother, more powerful ride, you'll spend less on gas – The CLEEN Plan improves gas mileage.

To GET WITH THE PLAN, ask the professionals at this establishment.

They may recommend getting a complete “Cleaning” right now. Or they may suggest you start using Advanced Super CLEEN or EZ-Pour CLEEN every 5,000 miles and then schedule the full CLEEN servicing later.
