

ECHLIN®

Did You Know?

NAPA ECHLIN DIS MODULES ARE THE ONLY AFTERMARKET DIS MODULES THAT CAN MEET OR EXCEED OE QUALITY AND RELIABILITY

NAPA Echlin's use of OEM circuit chips enables our DIS modules to exactly match the waveforms and performance of OE DIS units.

The chart below shows how NAPA Echlin matches up with OE and two competitors. As you can see, only NAPA Echlin matches OE.

NAPA Echlin's exclusive design incorporating OE IC chips make them the only aftermarket GM DIS manufacturer that can match OE.
