

SEE THE LIGHT.

CHECK IT OUT.

WHEN IT COMES TO TPMS WE'VE GOT YOU COVERED.

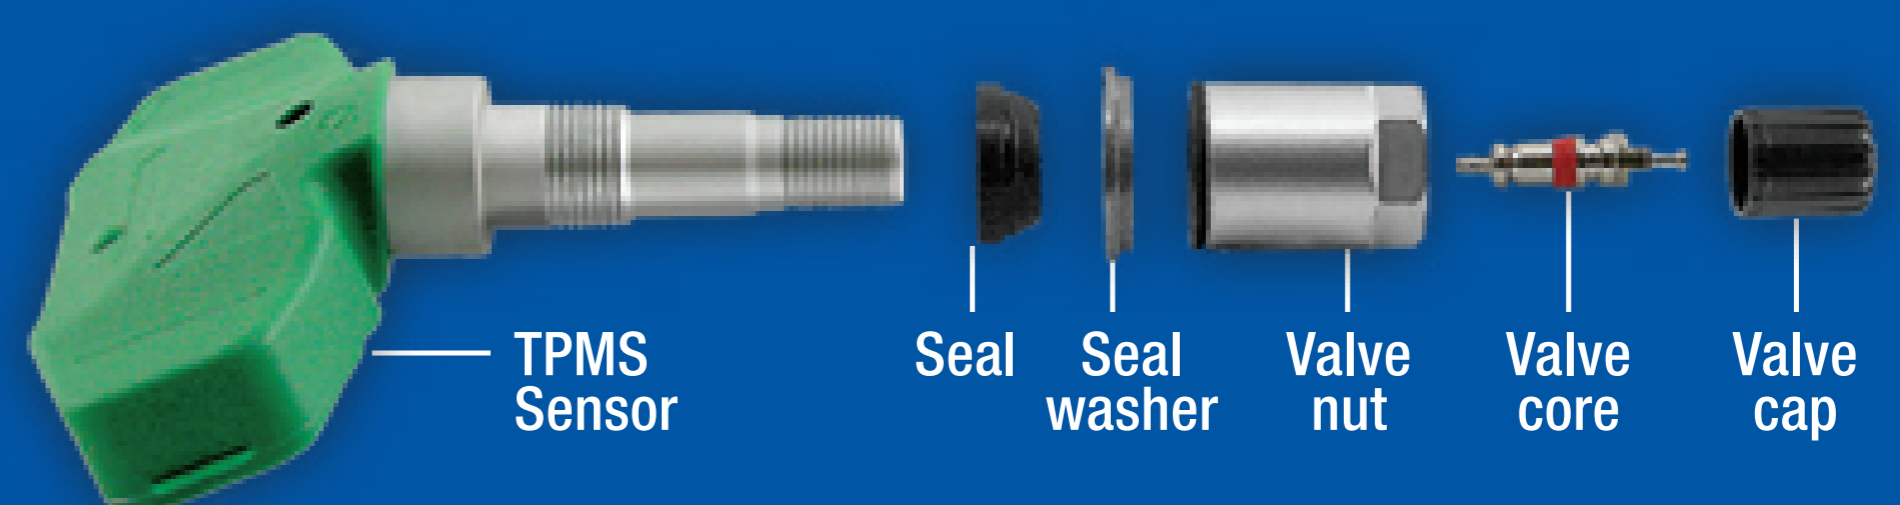

NAPA® Echlin® OE-Matching TPMS sensors provide the security of OE fit, form & function combined with the best TPMS coverage in the industry. Ready to install right out of the box, these advanced TPMS sensors can be OE-Relearned or ID-Cloned, technician's choice.

And that's not all, NAPA® Echlin® now offers the most advanced Multi-Coverage Programmable TPMS sensor in the market today – New QWIK-SENSOR™!

Don't forget the service kit.

TPMS service parts should be replaced every time a tire is removed from the wheel. These parts may include Valve Stem, Seal, Washer, Nut, Valve Core and Cap.

NAPA® Echlin® offers a complete TPMS line including OE-Matching sensors, mounting hardware, service kits, and advanced shop tools.
