

EASY INSTALLS JUST GOT EASIER STRAIGHT OUT OF THE BOX

NAPA® Belden® Edge Premium Spark Plug Wires come ready for installation straight out of the box. Each set carries our history of engineering leadership and innovation. Our NAPA® Belden® Edge line is built to save you and your customers time and money with our EZ-Fit design and “Wired for Life” guarantee.

- **Perfect Fit Every Time:** Save time and have peace of mind knowing that our easy-to-install wire sets meet and quite often exceed OE requirements.
- **Upgrades & Enhancements:** Our innovative Edge design includes factory installed wire clips, trays and protective loom to keep spark plug wires properly sorted, spaced and positioned, preventing melted casings and wire arcing.
- **Maximum Protection & Energy Flow:** Our wires are engineered to offer low resistance and high inductance. This means higher voltage and more power that’s transferred faster and with more strength, resulting in improved power, efficiency and performance. Our patented Formula 46 wire casing protective coating uses a durable silicone base and chemical compound that is permanently bonded through grafting to create an impenetrable shield scientifically designed for strength to battle extreme heat and cold.
