

ECHLIN®

WASHER PUMPS

LOOKS RIGHT.
FITS RIGHT.
PERFORMS RIGHT.

Quality Advantage: Washer Pumps

OE Fit, Form & Function

Direct-Fit Triumphs Over Universal Fit

Some applications require removal of the vehicle's bumper cover and even more components for washer pump service. As an OES manufacturer, NAPA® Echlin® units are engineered as a direct fit OE replacement. Many applications pay as much as 1.5 labor hours to replace. Don't waste your customer's time with universal pumps that do not fit.

The NAPA® Echlin® Difference

NAPA® ECHLIN®

2007 Dodge Dakota

NAPA® ECHLIN® UNIT

NAPA® Echlin® units are designed with exact OE connectors for a direct drop in replacement!

R&R means remove and replace, not
remove and regret. Choose NAPA® Echlin®

The NAPA® Echlin® Difference

UNIVERSAL IS NOT ALWAYS THE SOLUTION
